<TEXT>I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable. People on a limited income have no choice but to find cheap fees. Now you want to end that for us. How would you like to live on \$920.a month? Many on Social Security find this an affordable way to keep in touch with loved ones.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely, Jean A Bogart 312 Fairview Rd Unityville, Pa. 17774

Sincerely,

Jean Bogart
